III. Reading Comprehension

教務處公佈專用

Although intermingled with other populations, the Gypsies are a distinct ethnic group that originated in northern central India. At first known as the Dom in India, they were a low caste and earned their living by singing and dancing. The Dom began migrating from India in the ninth century, first as minstrels in Persia and later to escape the havoc wrought by a series of Muslim invasions. As they migrated through the middle East, the "D" of Dom was replaced by an "R." The Gypsies today refer to themselves as the Rom, meaning "Man." Their language, Romany, is a mixture of Sanskrit and words from various countries in which they have lived. All Gypsies speak Romany. Today there are an estimated 8 to 10 million Gypsies in more than 40 countries, an estimated 1 million of them in North America.

At the time of their first migrations into Europe in the 14th and 15th centuries, these landless wanderers, colloquially called Gypsies in England, earned their living as entertainers, magicians, blacksmiths, and horse dealers. They rejected agriculture and other settled occupations and pursued work that would avoid direct competition with surrounding populations. They were excluded from all craft and trade guilds, and the Roman Catholic church forbade association with Gypsy fortune tellers.

Gypsies have been succeeding in preserving their own identity by adhering to their own social and religious laws, which govern every aspect of their lives. Their Gypsy religion, Romania, is an oral tradition passed down through generations. The Gypsies are monotheistic and worship a patriarchal god they call Del. They do not make graven images of Del, nor do they have a clergy or fixed place of worship. They follow strict purity laws and shun violence. They are not involved in wars except as victims. Intermarriage or any nonsuperficial dealing with non-Gypsies, or gaje, is traditionally forbidden.

- 31 Which of the following is closest in meaning to the word "caste" in line 3?
- (A) sect
 (B) denomination
 (C) class
 (D) cult
- 32 In line 5, the word "havoc" could best be replaced by
