總按：作者為本校藥學系22屆蕭俊偉校友。感謝他的鼓舞，編輯部將一本初衷繼續努力

Dear Juling,

I enjoyed reading TMU Today, which I got from one of the alumni. In my opinion, that is the best way to be in touch with my alma mater. It's reminisce just to read the journal. It reminds me vividly the old days in TMC (was a College then). The Journal coming from a College I graduated some 15 years ago and a people I have loved so well, it fills me with an emotion I cannot express.

When I closed my eyes, in my conscious thought, I could see vividly as though my old classmates are still there and my soccer teammates playing on the field. The journal has touched my heart in the right place. It was a profound good memory that I have with TMU. A place where I grew up professionally and personally. The faculty in TMU has impacted my attitude toward learning and work ethics in my later career in the US in a very positive way. In my dream, in the evening of my memory, I always come back to TMU. I'm grateful that you and your editorial staff are working on this wonderful quarterly journal. It's instrumental in bringing closer all alumni to TMU.

On February 12h, 2001, I was invited by Dr. Kuo-Tung Chen, School of Pharmacy at TMU to give a talk on "Update:Pharmacotherapeutic Treatment of Hyperlipidemia-US persepective" at both TMU affiliated hospital and Wan-Fan Hospitals. It was the first time I went back to the College campus since my previous visit of campus in 1995. I felt like I'm home at last. I met with lots of physicians and pharmacists in discussion along the subject before and after my talks.

Please help me post this email to your editorial staff. I appreciate their hard work and dedication in making the journal possible for all of us.
