Scientific Program

Feb 7 th	Topic	Moderator
0720-0820	Registration / Coffee and Tea	
0820-0830	Opening remarks	Chii-Ruey Tzeng
0830-1030	Session1: Folliculogenesis, gamete physiology & embryo culture	
	Johan Smitz (Free University, Brussels) IVM as human ART	Hong-Nerng Ho (National Taiwan University)
	Chii-Ruey Tzeng (Taipei Medical University, Taiwan) The role of mitochondria in human reproduction	Benjamin Tsang (University of Ottawa, Canada)
	William Shu Biu Yeung (University of Hong Kong, Hong Kong) MicroRNA and embryo implantation	Huei-Wen Chen (National Taiwan University) Chia-Woei Wang

	Shee-Uan Chen (National Taiwan University, Taiwan) Successful performance of oocyte freezing for social and medical indications :what is optimal age range and how to conduct for obtaining good-quality oocytes and embryos	(Taipei Medical University)
1030-1045	Coffee break	
1045-1245	Session2: Stem cell and placenta research	
	B. Linju Yen (National Health Research institutes, Taiwan) Understanding differentiation capacity and immunomodulatory properties of human fetal-stage stem cells for therapeutic use	Yen-Hua Huang (Taipei Medical University) Hung-Chih Kuo (Academia Sinica)
	Hsin-Fu Chen (National Taiwan University, Taiwan) Using pluripotent stem cells as a model to study women's reproductive health	
	Chun Peng (York University, Canada) microRNAs in placental development	Joseph Huang (Ohio State University)
	Shannon Bainbridge (University of Ottawa, Canada) Identification of Unique Molecular Subclasses of Preeclampsia	Heng-Kien Au (Taipei Medical University)
1245-1255	Group photo opportunity	
1255-1400	Lunch	
1400-1530	Session3: Carcinogenesis, chemoresistance and disease management	
	Hidetaka Katabuchi (Kumamoto University, Japan) The origin and novel therapeutic discovery of epithelial ovarian cancer	Cheng-Yang Chou (National Cheng Kung University)
	Benjamin Tsang (University of Ottawa, Canada) Investigations on the Role and Regulation of Gelsolin in Chemoresistance in Gynecologic Cancers – An international Effort	Chiou-Chung Yuan (Taipei Medical University) Ting-Chang Chang (Chang Gung University and Memorial Hospital)
	Dar-Bin Shieh (National Cheng Kung University, Taiwan) The use of micro/nano technology in disease management	
1530-1545	Coffee break	
1545-1715	Session4: Food compounds and breast cancer	
	Chantal Matar (University of Ottawa, Canada) Functional food compounds and breast cancer prevention	Wan-Wan Lin (National Taiwan University)
	Alice L. Yu (Chang Gung University and Memorial Hospital, Taiwan)	Yuan-Soon Ho (Taipei Medical University)

	<p>Identification of breast cancer stem cell biosignature and targeting strategies</p> <p>Shih-Min Hsia (Taipei Medical University, Taiwan)</p> <p>Chinese herbal medicine and reproductive endocrine disorders</p>	<p>Jane C-J Chao (Taipei Medical University)</p>
1720-1800	<p>Small group discussion for collaboration (15F Conference Room)</p>	

Feb 8 th	Topic	
0730-0800	Coffee and Tea	
0800-0900	Session5: Benign disease affects women's health and fertility: PCOS	
	<p>Ming-I Hsu (Taipei Medical University, Taiwan)</p> <p>Phenotypes and metabolic disturbances in women with polycystic ovary syndrome</p>	<p>Hong-Yuan Huang (Chang Gung University and Memorial Hospital)</p>
	<p>Benjamin Tsang (University of Ottawa, Canada)</p> <p>PCOS: From Bench to Clinic and Back - New Insights into an Old Problem</p>	<p>Mei-Jou Chen (National Taiwan University)</p>
0900-1000	Session6: Benign disease affects women's health and fertility: endometriosis	
	<p>Shaw-Jenq Tsai (National Cheng Kung University, Taiwan)</p> <p>Epigenetics and Endometriosis</p>	<p>Eing-Mei Tsai (Kaoshiung Medical University)</p> <p>Ming-Jer Chen (Taichung Veterans General Hospital)</p>
	<p>Wei-Chung Vivian Yang (Taipei Medical University, Taiwan)</p> <p>Biomarkers of endometriosis</p>	<p>Yu-Ming Hu (MacKay Memorial Hospital)</p>
1000-1015	Coffee break	
1015-1215	Session7: Ovarian cancer and gynecological cancer	
	<p>Hung-Cheng Lai (Shuang Ho Hospital, TMU, Taiwan)</p> <p>Ovarian cancer stem cell research: clinical implication</p>	<p>Hidetaka Katabuchi (Kumamoto University)</p>
	<p>Barbara Vanderhyden (University of Ottawa, Canada)</p> <p>Lessons learned from mouse models of ovarian cancer</p>	<p>Chao-Lien Liu (Taipei Medical University)</p>
	<p>Cheng-Yang Chou (National Cheng Kung University, Taiwan)</p> <p>Molecular mechanism of chemoresistance in epithelial</p>	<p>Chyong-Huey Lai (Chang Gung University)</p>

	ovarian cancer	Cherng-Jye Jeng (Kaohsiung Medical University)
	Chao-Hsiun Tang (Taipei Medical University, Taiwan) Economic evaluation on policy for cervical cancer prevention	
1230-1330	Lunch & Small group discussion for collaboration (15F Conference Room)	
1330-1400	Focus group reports & charting the future	
1400-1415	Closing remark
