**TMU X BE Accelerator Program 2024 Batch 【Batch Recruiting】**

Taipei Medical University BioMed Accelerator and BE Health Ventures have co-launched TMU X BE Accelerator Program, which is a Proof of Clinical Evidence Program that focuses on product or prototype-ready startups that are looking for traction in the Asian market. Based in Taipei, Taiwan we leverage the unique strengths of our ecosystem to position our accelerator program as the gateway to Asia.

Within the program, startups would have opportunity to access the hospital facilities, research institutes, investors, healthcare experts and other industry stakeholders help you secure funding and expand your market to Japan, Greater China, and SEA.

Taipei Medical University has six world-class hospitals under their management, with a focus on innovation and smart hospitals. Establishing them as an ideal partner for those venturing into the Asian healthcare market.

Not only that, we've launched "International Market Expansion Program". Startups teams participating in the program stand a chance to be selected for the opportunity to expand to US and Japan market through our international partners, connecting with key stakeholders and medical institutions in San Francisco and Tokyo.

Application Deadline: Till 2024/12/31
